

Ultimate spring to-dos

had a picnic that
didn't go as
planned?

worn spring
clothes when it
was still too cold?

confused spring
allergies with being
ill?

bought something
because it "felt like
spring"?

Have you already...

planned to study or
work outside but
got distracted?

forgotten an umbrella
and got completely
wet?

started a "new spring
routine" and stopped after
two days?

seen something
surprising while walking
outside?
